

Honey CBD Tinctures

A Supplement-enhanced Honey Tincture Line for Better Health

A Honey of a Partnership

Our unique honey tinctures are the result of a collaborative effort between Sweet Cheeks Farm and Apiary, and Imbue Botanicals. Our collective passion for providing the finest in organic products and natural solutions to health have led us to create a line of pure honey tinctures with the power of CBD.

But best of all, they taste unbelievably GREAT! We start with our exceptionally high-quality honey, naturally rich in antioxidants which can help improve blood pressure, and lower cholesterol and triglycerides. Then combine it with our Colorado grown, proprietary CBD, rich in terpenes and cannabinoids for an unbeatable combination. There's nothing like these tinctures available on the market.

The imaginative flavors and immune-boosting natural supplements are carefully crafted to deliver maximum efficacy and truly outstanding taste. Pure honey from the Garden State and 500 mg Full Spectrum Colorado CBD. Simply exceptional.

Available in 5 exceptional flavors, including:

HIBISCUS
