

Your data tells a story. Are you listening?

myDATAMART

myDataMart is a comprehensive business intelligence tool that provides a deeper look into your pharmacy operations.

Star Ratings: You control your own star ratings reporting. Measure your total star ratings performance or see a per-patient star rating per measure. Meaningful information in a usable format that you control.

New, Lost Patients: Quickly identify these patients and display them on interactive geographical maps for quick review.

Dispensing Trends: myDataMart provides many dashboards for measuring performance and identifying opportunities. Track prescription volume, generic fill rates and maintenance medication usage.

Today's pharmacy systems satisfy basic reporting needs with limited capabilities. myDataMart empowers you to thrive in today's competitive market by unlocking your largest untapped resource: Your data.

Let myDataMart help you build an Action Plan for Success!
